

Dr. Lara Varisco Leonhardt, MD

April 6, 2020

Welcome to Monday Madness:

Hope everyone had a good weekend. Bee Well Pediatrics has always given the mom 51% say so in her child's healthcare. We have considered our parents as a partner in their child's health. Well, now its never been more evident that our parents are on the forefront not only for their child's health but also as a teacher.

With the extended stay-at-home order announced this past week, we are continuing to stay open at both locations and encourage telemedicine via doxy.me/beewell when able. It is a good tool for adhd, asthma medication refills, rashes, allergies, stomach bug, or even cradle cap and diaper rash. These virtual visits, also known as telemedicine, can take place on your smart phone, tablet, laptop, or computer. No special software, apps, or passwords are needed. We know your children best and want to take care of your little one.

We are happy to now announce that we can test for COVID-19 in our office with 24 hour turn around time.

Thank you to everyone who have supported us, shared our facebook posts, called, and emailed to check on us these past few days. We are more grateful than you will ever know.

Take Care,

Dr. Leonhardt, Sarah Valdes, PNP, Nadiah, Gina, Krystal, Patty, and Emely
