Hello Family and Friends:

I just wanted to touch base with everyone this week and see how we are all fairing this storm. I know it has been very stressful for all of us. Everyone has responsibilities; although they vary from household to household. My kids would be the first to say. "Mom, I hope your office doesn't close, because I don't know if you could be a teacher in your next job !" I think we have all gained a new respect for teachers, stay at home moms, and the healthcare community.

Bee Well is still open. WE still have regular hours at both offices. We had a baby boom over the past 2 weeks so we have been at the hospitals too on a daily basis. For those of you that have tried our telemedicine route that is great. I would love to hear your feedback. We are here to remain your source of health care for your little ones. We want to hear from you. We are still doing check ups and same day sick visits. We're open this Saturday too.

Thank you for bearing with us and following the new recommendations of staying in the car while you wait and trying not to crowd the waiting room.

Bee Well. Live Well.

Sincerely,

Lara Varisco Leonhardt, MD
